QUINCY, PLUMAS CO., CAL.

SATURDAY, DEC. 1, 1866.

CANDIDATES.—The Spirit of the Times, recently published a list of some of the candidates who would like to receive nominations for office at the hands of the next Radical Union Convention. Other papers have added to the list until the array has become formidable. Before the Convention meets it will be safe to consider nine out of every ten of the members of that party, as candidates for some office. We have added a few names to the list, as published in the Appeal of Nov. 24th:

United States Senate—A. A. Sargent, F. F. Low, John Conness, J. B. Felton.

Congress—Northern District—J. R. Buckbee, Jesse O. Goodwin, Charles E. Flitkins, C. Hartson, W. H. Parks, L. E. Pratt, L. M. Foulke, William G. Morris. Middle District—William Highy, J. N. Hale. Southern District—W. J. Knox, W. E. Lovett, Harvey S. Brown, J. S. Wallis, J. Ross Brown.

Judge of the Supreme Court—John Currier, J. H. McKune, O. C. Pratt, W. T. Sexton, —Rix.

Governor—John Bidwell, T. N. Machin, C. T. Mender, George C. Gorham, F. M. Pixley, J. H. Jewett, D. C. McRur, G. C. Perkins, A. A. Cummings.

Lieutenant Governor—J. P. Jones, Geo. S. Evans, J. M. Avery, J. McCatchey, J. Stratman.

Controller—George Oulton, W. A. Selkirk, J. A. Benton.

Treasurer—R. Pacheco, T. J. McCormick, T. Eagar, W. B. Hunt, W. N. Dehaven.

Secretary of State—B. B. Redding, W. C. Stratton, D. E. Gordon.

Attorney General—J. G. McCullough, Jas. E. Hale, G. W. Tyler, F. M. Smith.

Surveyor General—J. F. Houghton, W. S. Watson.

Clerk of the Supreme Court—W. G. Wood, M. D. Boruck, A. Barstow, S. F. Seabury.

State Printer.—The proprietor of every Radical paper in the state can be considered a candidate for this office. It pays.

Superintendent of Public Instruction—John Swett, J. B. McChesney, W. A. Boykin.

WORTHY OF IT.—Hon. W. T. Sexton is named as a candidate for Supreme Judge on the Radical ticket at the next election. Judge Sexton is the best man they have in the party for that position. He can poll a larger vote, and if any radical is to be elected, we hope "Sex" will be the one.

WHO'S BOSS.—A correspondent of the Sac. Union relates the following:

A man who had been putting too much water in his whisky at one of our hotel bars suddenly felt a nausea and stepped onto the sidewalk to cast up his accounts. He retched violently, but was unable to discharge cargo. A sympathizing bystander suggested that if he should put his finger down his throat it would facilitate matters. The sufferer turned upon the officious person with a look of drunken dignity, saying: "D—d! I sh'dn't like to know wher' you're bossin' this puke!"

FARCY IN HORSES.—Farcy and Glanders are the same disease exhibiting itself in different forms. It is incurable, and very dangerous. The only safe way is to kill the sufferers, and take great care that the disease is not communicated to men. In the early stages the disease is not conspicuously evident, and unscrupulous persons often sell glandered horses. This ought to be a State Prison offense.—[American Agriculturist.]

NO USE.—The list of Radical candidates for Congressman from this District, (the Third) is a very large one. No less than ten names have already been proposed. It makes no difference who of the number gets the nomination, for he will not be elected. The next Congressman from the Third District will hail from Plumas Co. He will not be the Radical candidate either. We could give his name if necessary. So far as we are concerned, we hope that Hon. Bill Parks of Yuba or Sutter will be a candidate. We would like to see his political tail fly up. He is our "puff" of the Radical candidates.

ROUNDS IN IRELAND.—A dispatch says: The Fenian troubles in Ireland have assumed considerable proportions, and there is no doubt that a serious outbreak has occurred. Two regiments of national troops were urgently ordered to Ireland yesterday, and transports were being prepared all last night at Portsmouth. A large detachment of marines were also sent over to Queenstown on the war steamer Plymouth. A gunboat at Chatham has been ordered to sail for Queenstown immediately. Much alarm is felt at Cork and throughout Ireland generally. The London Times of this morning believes that Chief Organizer Stephens will soon arrive on the scene, if he has not already. The Globe editorial hints that a more serious trouble with the United States is really at the bottom of the Fenian outbreak.

TWENTY-TWO large sea-going steamers enter and sail from the port of Aspinwall and Panama monthly. When the line to China is opened, the Isthmus will be in direct communication with almost every portion of the globe.

A MILE.—The length of a mile is differently estimated. An Irish mile is 2,240 yards, or 6,720 feet; a Scotch mile is 1,981 yards, or 5,943 feet; an English mile is 1,760 yards, or 5,280 feet; a German mile is 1,866 yards, or 5,418 feet; a Turkish mile is 1,836 yards, or 5,478 feet.

UNION PACIFIC RAILROAD.—A correspondent of the Pittsburg Commercial, writing under date of Oct. 16th, says:

The Union Pacific Railroad, Eastern Division, is finished to Fort Riley, Kansas; and is making close connections with all railroads running from our Eastern cities to the great West.

At a meeting of the stockholders, held in your city on the 8th ultimo, as you will remember, contracts were made for the construction of two hundred and fifty miles more, bringing the road to Ponca creek, within two hundred miles of Denver City, or six hundred and seventy miles west of St. Louis, and twelve hundred and twenty-seven miles west from Pittsburgh.

Contracts were also made for six thousand tons more of the Cambria Iron Works' best rails, and making something over thirty thousand tons of Pennsylvania made railroad iron purchased by this company during the past sixteen months.

Of the different Pacific railroad projects starting westward from various points between the head waters and mouth of the Mississippi river, the Union Pacific, Eastern Division seems to be the favorite, not only with the statesmen of our time, but in the great business centers of the Union, partly on account of the great wealth and reliability of its managers, and partly on account of the geographical location of the route straight through the centre of the United States, possessions and of the continent—the very route first projected by Thomas H. Benton, and advanced with much persistence and ability. Crossing the continent nearly on a parallel with the Birmingham of America, I deem it a subject of special interest to the readers of the Commercial; particularly if presented by one who has made the examination of trans-Mississippi railroad enterprise a specialty for ten years past.

West of the Missouri river there is projected at least ten thousand miles of railroad, the best partial construction of which will increase the market for goods manufactured in Pittsburgh and other Eastern cities to an extent that is utterly beyond calculation, particularly if our Congress will be so kind as to adjust our internal and external revenue laws, so that American taxpaying manufacturers shall at least have an equal chance in our home market, with our British rivals.

I hope I am not altogether unmindful of the golden rule; but must constantly protest against the construction of it that treats our foreign natural enemies better than we treat ourselves.

Dropping the golden rule as applied to political economy, and returning to the Union Pacific Railroad, Eastern Division which starts from two points on the west bank of the Missouri river—Leavenworth and Wyandotte, the two branches uniting at Lawrence (Kansas) make from that point directly west, on a near as an air line possible, through Kansas, Colorado, Utah, Nevada and California to San Francisco, or until it meets the Western Division, from that point coming this way. The first six hundred miles of the road west of the Missouri river being less than fifty miles longer than air line.

The great advantage over all competition, have suited to this road a most adventurous connection with the entire railroad system of the Eastern States. Glance at a map of the United States and you will observe that by this road and its present connections via St. Louis, there is but one unbridged river between Pittsburgh and San Francisco; or by its connection via the Hannibal and St. Joseph Railroad to the Mississippi and Missouri, both of which are destined to be bridged or tunnelled in a short period.

A bill was introduced in Congress last session to pass, by General W. J. Palmer, Treasurer of the Union Pacific Railroad Company, Eastern Division, giving a company organized for the purpose the privilege of tunneling the Mississippi at St. Louis or rather the privilege of constructing a tubular draw bridge under the river. This project of General Palmer's is perfectly practicable, and so pronounced by the best engineers in the country. It can readily be seen that an iron tunnel of this description would be far more desirable in point of economy and strength than one built of masonry, like that under the Thames in London.

With this tunnel under the Mississippi, and the railroad completed through to its western connection, you will have a through train route from Pittsburg to San Francisco, and way stations without change of cars or break of freight.

In the language of the railroad advertisements of the day, you will have "through tickets and baggage checked through without change of cars". Passengers desiring to stay over in the Rocky Mountains can be supplied with stop over tickets for the purpose by applying to the Conductor.

The readers of the Commercial are of course aware that Congress has made provision for establishing a first-class line of steamers from San Francisco to the Sandwich Islands and China, which, in the hands of its projectors, cannot, with its liberal Government subsidy, fail to become a complete success.

The completion of the Union Pacific Railroad, eastern division and connections, gives you then a thorough direct line from Pittsburg to San Francisco without change, and to the Sandwich Islands, Japan or China with but one change.

All this within three years of the present writing.

SENSELESS.—Several of the Radical papers in this State are denouncing the office-loving Avery. They think that when a man is turned out of office he should leave, and not wait to be kicked out.

LET UP.—The Flag has ceased to wave upon the Bank of California. Wonder what's the matter.

ELOPEMENT.—An elopement in high-life says the Solano Press, occurred in Green Valley about two weeks ago—a captivating celestial abounding with an attractive Digger lady. The Chinese gentleman subsequently abandoned his fair "lover," and there the romance ends.

An eccentric old miser named Howell Rose, died lately at his log cabin in Coosa county, Alabama. By hoarding his means for many years he had been enabled to accumulate a property of nearly three hundred thousand dollars, all of which passed by his death to the use of his wife for life.

A MILE.—The length of a mile is differently estimated. An Irish mile is 2,240 yards, or 6,720 feet; a Scotch mile is 1,981 yards, or 5,943 feet; an English mile is 1,760 yards, or 5,280 feet; a German mile is 1,866 yards, or 5,418 feet; a Turkish mile is 1,836 yards, or 5,478 feet.

Twenty-two large sea-going steamers enter and sail from the port of Aspinwall and Panama monthly. When the line to China is opened, the Isthmus will be in direct communication with almost every portion of the globe.

A MILE.—The length of a mile is differently estimated. An Irish mile is 2,240 yards, or 6,720 feet; a Scotch mile is 1,981 yards, or 5,943 feet; an English mile is 1,760 yards, or 5,280 feet; a German mile is 1,866 yards, or 5,418 feet; a Turkish mile is 1,836 yards, or 5,478 feet.

NEWS OF THE WEEK.—In reply to the accusation that Secretary Seward was complicit with Napoleon to trample out the Monroe Doctrine, and to effect other analogous purposes, the New York Times of the 23d inst., says editorially: "When documents setting forth more recent negotiations concerning the Mexican matter before the country, which will soon do, will be seen that there has been a consistency about our diplomacy, from the beginning to the end, such as has characterized few negotiations of equally important and prolonged kind. It will be found that the interests and the honor of this country, and the traditions and sentiments of its people, have been not less studiously regarded and firmly upheld throughout than the just rights of the Republic of Mexico. It will be discovered that we have neither acknowledged the claims of French usurpation nor agreed to assume its debts." . . . A Paris paper of the 11th inst. states that the French Government has received from General Castelnau a telegram corroborating the intelligence of Emperor Maximilian's firm intention to remain at the head of affairs in Mexico even on the return of all the French troops. . . . The panic in Wall Street, N. Y., seems to have spent its force,—the Government having offered to receive from the banks compound interest notes at par with interest, in payment of obligations due from the banks to the Treasury. . . . The Army and Navy Union of New York, a political association, recently passed resolutions by a two-thirds vote, declaring that the Constitutional Amendment ought to be rejected, but that the conservative papers of the country should advocate the extension of suffrage to negroes, under proper restriction. . . . Parties who have lately visited Jeff. Davis report him remarkably cheerful since the recent changes and improvement of his quarters. His health is greatly improved, and he speaks confidently of release. . . . The Herald's Washington special of the 23d inst. says: "It is reported here that prominent Radicals had a meeting in Philadelphia on the 20th inst., at which articles of impeachment against the President were prepared. They are to be submitted to the Republican members of Congress on the Saturday preceding the meeting of Congress." . . . Resolutions have been introduced into the Arkansas Legislature, calling on the Governor for information as to the attempt to overthrow the present State Government. The resolutions were called forth by the fact that it is reported that a few individuals at Fort Smith propose inaugurating a new State government there. . . . The Ste. Stephens wing of the Fontans, in a mass meeting at St. Louis on the 22d ult., adopted resolutions reaffirming confidence in Stephens, and condemning another bloody movement on the Canadas, and also expressing the belief that England would not execute the sentence of Canadian Courts, but if she does, their only hope is successful retribution and the establishment of an Irish nationality, and for prompt and energetic co-operation with their Irish brothers on Irish soil. . . . The National Intelligencer (Washington) comes out against impartial suffrage. . . . Wheat in New York on the 23d ult., stood at \$320 a bushel.

DRUGS AND MEDICINES.

The Quincy Union.

LOCAL ITEMS.

PREVALENT.—Chicken Pox is quite prevalent in our town at the present time.

DISCHARGED.—By order of the County Court of Butte Co., W. D. Smith has been discharged from all his debt and liabilities.

DANCE.—On Thursday night, thanksgiving party met at the Plumas House Hall, and passed a few hours very pleasantly in "tripping the light fantastic," &c.

MATCHED.—We hear it reported, that one of Haun's game chickens has been matched to fight an Orville bird, on Christmas day, at Crescent Mills, Indian Valley, for a bet of \$100 a side.

FIRE.—On Saturday night last the barn and warehouse of Rooster & Co., near La Porte, were set on fire by some rascally scoundrel and burned to the ground. Loss estimated at \$9,000.

MOVES.—The old building of Deuler's, the corner of the street, opposite the Plumas House, was moved by ox-power, on day this week. It was hauled away in "skids" and placed in position again, below Mr. D's residence. He intends repairing and fixing it for a dwelling house.

SCARE.—It is useless to remind our readers that items have been "powerful" scarce during the past week, our local columns prove that fact conclusively. The storm seems to have put a "damper" on some of our correspondents, else we would have heard from them.

IN JAIL.—We learn that the friends of Henry Louis who is now in jail under a commitment from Esq. Eagle of La Porte, have failed to give the necessary bonds to secure his release from custody; therefore he will be obliged to remain in his present quarters until the case is disposed of by the Court.

SEBUCARIANS.—Nearly the whole of the American Turkey Tribe of Indians have taken up their abode on the side of the hill, near to, and back of the town. They have built several capitas, and intend building a large "sweat" house in a short time, which shows that they have permanently located.

GOOD TEMPLAR'S BALL.—It will be seen by reference to our advertising columns, a Grand Ball will be given at Lynn's new Hotel in Greenville, on the evening of the 13th inst., under the supervision of Greenville Lodge, No. 229, I. O. of G. T., to which the public are invited to attend. The managers promise the visitors a pleasant dance, a splendid supper, and their best efforts to render the party an agreeable one. From the character of the parties engineering the affair, we have no doubt but that they will accomplish what they have undertaken. We hope Greenville Lodge No. 229, will have a rousing bunch.

SUBSCRIPTIONS.—Hon. J. D. Goodwin, of this place has been appointed an Agent to receive subscriptions in aid of the California Union Soldier's and Sailor's Monument Association recently organized in San Francisco. The money collected by the Society, is to be used for the purpose of erecting a monument in Union Square, San Francisco, to the honor and memory of all U. S. Sailors and Soldiers who lost their life in the late war. The monument will cost about \$30,000. Mr. G. will receive and forward to the Treasurer of the Society, all contributions which our citizens may choose to donate to this patriotic enterprise.

HEARD FROM.—Some weeks since, a party of five or six gents from different sections of the county started out on a hunting expedition. They intended to be gone about two weeks. Their hunting ground was to be in the vicinity of Lassen's Peak. Having been gone some ten days longer than was expected, the friends of the party felt considerable anxiety in regard to their safety, for it was well known they were going into the country infested by the murderous Mill Creek Indians, and on Saturday last a party left Indian Valley for the purpose of finding out what had become of the first party. When they reached Big Meadows, they heard that the hunters were all safe; that they had had extraordinary good luck. They had killed about one hundred deer, several bear and lots of smaller game, and would start on the back track in a day or so.

TUE INSANE ASYLUM.—There have been more persons sent to this institution from Plumas Co., within the last six months, than during any other period in its history. The man Fitz Gerald, an account of whose insanity appears in another column, is the sixth unfortunate who has been assigned a place in this asylum since the 3d day of June, 1866. The frequent visits of Sheriff Yates and his deputies to this humane institution, in conveying thither those unfortunate citizens of our country, who have been bereft of reason, have enabled us to form some adequate idea of the manner in which this institution is now being conducted. From Mr. Yates and his Deputy, Mr. McPike, we learn that the whole of the wards, buildings and grounds of the Asylum are kept scrupulously clean and orderly, and the most unmitigating care and attention are bestowed upon the inmates by the Resident Physician, and those under him, as employees of the institution. This speaks well for the skill, ability and fidelity of Dr. G. A. Shuriff, the Resident Physician. In fact, our informants speak in unmeasured praise of the Doctor, and the manner in which the institution is now being conducted under him. We further learn from the same source, the condition of those who were sent from this county: Philip T. Sagenbach, who was committed June 3d, last, died a few days after entering the institution, of inflammation of the brain. Wm. H. Jacobs, committed June 27th, is rapidly being restored to reason. Geo. F. Davis, committed July 27th, is about the same as when placed in the asylum. He still continues a melancholic, and every effort to arouse his animation has thus far proved unsuccessful. Jno. McQuinn, committed July 30, appears hopelessly insane. Francis M. Goodwin committed Nov. 13th, had only been left there when T. Fitz Gerald was committed on the 27th of Nov., and started below in charge of Mr. McPike, who was specially appointed by Judge Hogan to execute the order.— Prior to last June, we believe, there had not been an inmate in the Insane Asylum from Plumas county for several years past, and we fervently hope that the case of poor Fitz Gerald will be the last instance of the kind we will be called upon to chronicle from this county for many a day to come, for of all afflictions man is heir to, we look upon being bereft of reason as the most unfortunate and hence take no pleasure in noting so sad an event.

PRO. & CO.—On Wednesday night last Mr. Todd delivered the last of his regular course of lectures in this town; after the lecture was concluded, Mr. Hiram L. Gear, editor, manager, &c., of the National, arose and informed the audience that he would deliver himself of a course of lectures, (two or three,) in reply to the assertions of Mr. Todd, and opposed to the doctrines of Spiritualism. The first of Mr. Gear's lectures was given on Friday night last. Through the persuasions of some of the friends of Spiritualism, Mr. Todd agreed to remain here a few days longer, and reply to Brother Gear's lectures. The program as given out is as follows: Todd will speak at 7 o'clock P. M., this Saturday evening, in the Court Room, in reply to Gear's 1st lecture; Mr. Todd will speak at 7 o'clock P. M., to-morrow, and Gear will speak at 7 o'clock P. M. We presume that Mr. Todd will go below on the stage of Monday, and that Mr. Gear's closing lecture will be given some evening next week. We have no inclination to give any report of the lectures, on either side. Todd, in his lectures, strikes at the foundation of the Orthodox religious creed, and puts in some sledge-hammer "blows"—attempts to portray the heresies of Spiritualism, believes in the manifestations, return of spirits, mediums, &c. &c. Gear in his lectures accuses the Spiritualist of being possessed with a powerful amount of "guiltiness," denounces them as unfeeling and unbelievers, and their doctrines as immoral, wicked and pernicious. We should judge that he believes every word in the Scriptures; that the story of Jonah and the Whale, of Moses, the Quail Story, of Ezekiel's Ford, the devil, eternal damnation, and everything in fact which is revealed in the Bible,—and expects his hearers to do likewise. But, as we before stated, we have no inclination to report the lectures; they are all well attended and listened to with marked attention. The subject of Spiritualism is the only one discussed at the present time, it is the subject of conversation in every crowd that gathers together; in the streets, stores, saloons, hotels, &c., and if the truth can only be made manifest, it will prove a blessing to all. So far as we are able to judge, we should think, that at present a majority of our citizens do not fully believe in the doctrine of either party or sect. How it will be after the lectures are over, we can't say; we guess, however, that they will remain in the same belief.

AND STILL ANOTHER.—A man by the name of Thomas Fitz Gerald, who has been, for some weeks past, working in the vicinity of Round Valley, was brought over to Quincy on Monday last and on the 27th inst., was examined on the charge of insanity, before the County Judge in the presence of Drs. Cate and Vaughan, and pronounced insane. On the morning of the 28th inst., A. J. McPike, Esq., started with him to the Insane Asylum. This is the man of whom mention was made last week in the Union, who, whilst laboring under insanity, attempted to cut off one of his arms. He has been known in that neighborhood, by the name of Thomas Fox, but in his sane moments gives his name as George. He is a native of Ireland, and says he came to California from Massachusetts, in 1858; lived for some time in Sacramento City; from there went to Virginia City, and last fall came to Plumas County. He also says he has a brother named William Fitz Gerald, living in Uxbridge, Mass.

Judge Hogan did not decide that it was necessary for a citizen to be enrolled on the Great Register before June, 67, to entitle him to serve as a juror, but he did decide that his name must be entered upon the poll book in the precinct where he resided, before he could serve as a juror. Do you see the difference, Mr. Appear? If we remember correctly, you pronounced the decision of Judge Hogan a foolish one. How is it with Judge Belcher?

WILL START.—The new mill erected on the Premium ledge at Indian Valley, by Messrs. Chambers and Bolinger, will be running order in the course of a couple of weeks.

PAIN KILLER.—Pain is supposed to be the lot of us poor mortals as inevitable as death, and liable at any time to come upon us. Though we do not subscribe to this doctrine in all its length and breadth, believing that our pains, aches and sicknesses are the result of our own folly, our violation of nature's laws as they have been instituted by the Creator, still it is undeniable that the race has degenerated, and that all of us bear about us the seeds of disease as they have followed the great law of hereditary descent. Therefore it is important that remedial agents should be at hand to be used on an emergency, and when the seminal principle lodged in the system shall deposit itself, and we be made to feel the excruciating agonies of pain, or the depressing influences of disease.

Such remedial agent exists in the PAIN KILLER of our fellow townsmen, PERRY DAVIS & SONS, whose fame has extended over all the earth, and whose names are blessed even from the rising of the sun to the going down thereof. The Pain Killer has made the circuit of the globe. Amid the eternal ices of the polar regions, or beneath the intolerable and burning sun of the tropics, its virtues are known and appreciated. Under all latitudes, from the one extreme to the other, suffering humanity has found relief from many of its ills. The wide and broad area, over which this medicine has spread, attests its value and potency. No other has, to our knowledge, been so universally and favorably received. It has made its own highway, solely by its virtues.

Such success and popularity has brought others into the field, who have attempted to eclipse the original. But we are pleased to know that their efforts have proved fruitless.—Under similarity of name they have attempted to usurp the confidence of the people and turn it to their own selfishness and dishonesty. But the people, true to the one who was their real benefactor, have in the main stood by the original; the imposters and their nostrums have sunk into oblivion and merited contempt.

The Pain Killer derives much of its popularity from the simplicity attending its use, which gives it a peculiar value in a family. The various diseases which may be reached by it, and in their incipient stages eradicated, are among those which are peculiarly fatal if suffered to run; but which are cured by its preparation at once disarms them of their terror. In all respects it fulfills the conditions of a popular medicine.—Stick to it, therefore; buy the original and genuine.—[Providence Times.]

WILL MEET.—County Court meets on Monday next, at which time judgment will be rendered in the case of the People vs. McVay. We believe there are no other cases upon the docket for the term.

PLAY.—Is running high at Baden Baden. An English Duke has lost in one evening this season \$32,000, but he afterwards won enough to make him "out" only \$3,000.

SIXTY-THREE passenger trains come and go at Chicago, every day, that city being the terminus of thirteen or more railroads, and the charters of more have been procured.

At what hour did the devil make his appearance in the garden of Eden? Some time during the evening. The Devil is a scoundrel.

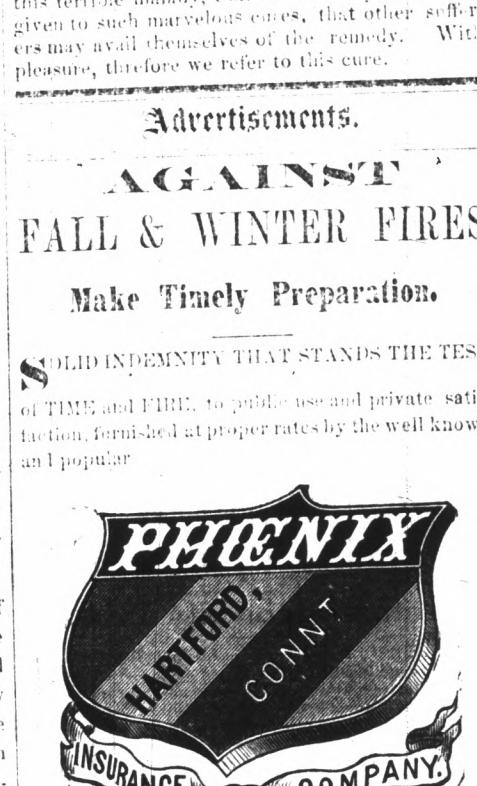

THE EDITOR of the Cincinnati Times says "A REMARKABLE CURE."—Mr. Samuel Lewis, one of the old Pioneers of Cincinnati, was very long, apparently, in the habit of Concupiscence, and given up by physicians, when some kind friend recommended him to use ALLEN'S LUNG BALSAM. He did so, and immediately commenced improving, and is now able to attend to his business. He says: "In truth, I may say, it has saved my life." Mr. Lewis is well known in Cincinnati, and the fullest confidence may be placed in his statements. It is due, therefore, to the community, especially those suffering under this terrible malady, that the tallest pitchfork be given to such merciful ones, that other sufferers may avail themselves of the same. With pleasure, therefore we refer to this cure.

ADVERTISEMENTS.

AGAINST FALL & WINTER FIRES.

MAKE TIMELY PREPARATION.

SOLID INDEMNITY THAT STANDS THE TEST OF TIME AND FIRE.—To private use and private satisfaction, furnished at proper rates by the well known and popular

CASH ASSETS, JULY, 1866.

SUMMONS.

STATE OF CALIFORNIA,
COUNTY OF PLUMAS.

In the Justice's Court, Indian Township,

To the People of the State of California, to WILIAM MYERS, Greeting:

You are hereby summoned to appear before me, at my office in Taylorville, in said Township and county, on the 19th day of December, 1866, at 10 o'clock A.M., to answer the complaint of J. C. Palmer, who has this day commenced an act against you on the following p[ro]p[erty]:

To receive judgment against you for rents, &c.

Given under my hand this 2d day of Nov., A. D. 1866.

R. C. HANSEN,
Justice of the Peace of said Township.

A. J. GARRISON, Clerk of the Court.

v4-n32-4f

Summons.

STATE OF CALIFORNIA,
COUNTY OF PLUMAS.

In the Justice's Court, Indian Township,

To the People of the State of California, to WILIAM MYERS, Greeting:

You are hereby summoned to appear before me, at my office in Taylorville, in said Township and county, on the 19th day of December, 1866, at 10 o'clock A.M., to answer the complaint of J. C. Palmer, who has this day commenced an act against you on the following p[ro]p[erty]:

To receive judgment against you for rents, &c.

Given under my hand this 2d day of Nov., A. D. 1866.

R. C. HANSEN,
Justice of the Peace of said Township.

A. J. GARRISON, Clerk of the Court.

v4-n32-4f

Summons.

Baby Talk.

Where's ze baby, he's its art,
Muzer's little darley boy,
Tum and time into its tart,
Suck its little sugar toy.

Now we'll take it ridy widy,
Darrest, precious, honey, honey,
Ma won't let it slyd idy,
Cause 'twould hurt her little sonny.

Oh, you pity sugar plummy,
Does it want its story talk?
So it sall; you ducky tummy,
Let its muzzy see it walky.

My, what aile it sweetest mousy?
Mamma said it's going to ky;
One sees its ippeys pony,
Hushy darley rocky by.

Does the cabbage mammy eaty
Make its little tunny achy?
Is its little eyes so seepy,
Hiccup kick it wide awake.

Does it want to see its daddy?
So it sall in little while,
See it rous its tinnys puddy,
What does alz its bussel chile!

Ugh! you naugher pir, go 'way!
Hushy, deary, do to sleep;
Mammy by her baby star,
Uggy fies from baby keep.

MAKING A MAN EAT A DINNER.—A couple of days ago a fellow entered a drug store on Kerner street, and informed the proprietor that he had not eaten anything for forty hours, and was without money to purchase a meal. Without a moment's hesitation the druggist tossed the applicant twenty-five cents, and told him to go and eat his fill.—Without saying "thank you," the loafer picked up the money and strolled off. He had hardly got out of the door before the druggist took his hat and followed. The beggar continued his tour of assessment along the street, and each person who gave him assistance joined the druggist, until the party numbered nearly a dozen. Having reached California street, the beggar took a bee-line for the wharf, and finally brought up at a saloon on East street. Entering the saloon, he drew up a chair to where three others were engaged in a game of poker, asked if he could have a hand, and laid down the money that had been given him. He had hardly taken up the cards that had been given him, before the gentlemen entered. One of them seized the fellow by the coat collar, another picked up the money that had been deposited on the table, while a third said:

"You consummate rascal, you told me you had not eaten for forty hours. What have you to say for yourself?"

"Well, you have caught me gentlemen, and I don't think it necessary for me to say anything."

"Let us make him eat," said one.
"Yes, that's what to do," replied two or three.

And they compelled the fellow to go with them to a restaurant, where they paid the proprietor for a dinner, and compelled the fellow to eat it, which he did with a grace that showed that he did not appreciate the attention he was receiving. The remainder of the money was handed over to the San Francisco Benevolent Association.—S. F. Call.

A CULLED PRAYER.—At a meeting of the colored "brethren" for prayer, one of their number offered the following petition:—"Lord dress poor critters and dose poor sinners. Dey's surrounded by a great many blessings. Dey don't know how good you is. Dey's like de dog under de 'simmon's tree eatin' de 'simmons, and don't know whar dey come from. Hab mercy on all de sinners, and on my Jim, 'cause he's a bad boy, Lord—badder than you knows for!—He swars. He swars more in de tent than he do outdoors! Now bress us all, and stand by me, and I'll stand by you—sartin!"

DESCRIPTION OF A DRUNKARD.—A pious divine of the old school says: "A drunkard is the annoyance of modesty, the trouble of civility, the caterpillar of industry, the tunnel of wealth, the ale-house benefactor, the beggar's companion, the constable's trouble, the woe of his wife, the scoff of his neighbor, his own shame, the picture of a beast, and the monster of a man."

THEIR SAINT.—The Colorado Miners Register says that the patron saint of Colorado is Wilkins Micawber.

HOSTETTER'S CELEBRATED STOMACH BITTERS.
A PURE AND POWERFUL TONIC,
CORRECTIVE AND ALTERATIVE,
—OF—
WONDERFUL EFFICACY IN DISEASES
—OF THE—
Stomach, Liver and Bowels.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fever, Cramps, Spasms, and all Complaints of either Sex, arising from Bodily Weakness, whether inherent in the system, or produced by Special Causes.

Nothing that is not wholesome, genial and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral or any kind, nor acids, nor any element; no Herbs ever exist; but a combination of the extract of various herbs and plants, with the purest and most delicate essences.

STRUCTURE OF THE URETHRA is another formidable enemy to health, and one of my circulations on that disease, and indeed, one of the most difficult to cure.

GENERAL TONIC.—Dr. W. K. DOHERTY'S BITTERS produce effects which are truly wonderful, and cannot be matched by any other preparation. They are fully guaranteed.
